

## SYSTEM REQUIREMENTS

At Grace Hill, we are committed to providing our clients with the best products and service possible. The following information provides a list of system requirements and steps to support the Vision LMS platform and ensure that your employees have the optimum learning experience.

### Software Requirements

- Google Chrome 57+, Mozilla Firefox 47+, Microsoft Edge 17, Microsoft Internet Explorer 11, Apple Safari 8 & 11
- Adobe Acrobat Reader 2017+
- Flash 27+
- Screen resolution of 1200 x 1080 pixels or greater.
- If Pop-Up Blockers are in use, those from visionlms.com must be allowed for courses to load.
- A soundcard and speakers/headphones are needed to hear the audio features of the course.

### Steps to Ensure You Receive Grace Hill Emails

Grace Hill, Inc. uses email as a primary method to communicate important product messages and alerts to our clients. Additionally, certificates of completion and student transcripts may be sent electronically. In this age of spam filters and firewalls, we want to ensure our emails are arriving in your Inbox.

To ensure fast, reliable delivery of your messages, please ask your IT team to allow emails from the following domains and email addresses:

- .gracehill.com
- .gracehillvision.com
- .visionlms.com

We are happy to work with your IT department to ensure the successful delivery of our custom communications. Please have your IT representative contact the Grace Hill Help Desk at [support@gracehill.com](mailto:support@gracehill.com) if there are any questions.

### Firewall and Proxy Server Information

If firewalls or other security devices are in place, please ensure traffic is allowed to and from the addresses below.

If a proxy server is in use by your company, please ensure that the following IP addresses and domains are allowed as exceptions either client-side, or on the proxy server itself. Any caching whatsoever can cause erratic results and will seriously impact the employee's training experience.

- .gracehill.com
- .visionlms.com
- .gracehillvision.com
- .ghscorm.com
- .vitalstream.com
- .docuSign.com
- .youtube.com (required for Lunch & Learn Series)
- .vimeo.com (utilized for some video content)

## Browser Support

We are committed to performing key application testing when new browser versions are released. However, due to the frequency of some browser releases, we cannot guarantee that each browser version will perform as expected. If you encounter any issues with any of the browser versions listed in the tables below, please have your IT representative contact the Grace Hill Help Desk at [support@gracehill.com](mailto:support@gracehill.com) for support. The Help Desk will determine the best course of action for resolution. Reported issues are prioritized by supported browsers and then maintenance browsers.

Supported browsers are the latest or most recent browser versions that are tested against new versions of Vision. Customers can report problems and receive support for issues. For an optimal experience, we recommend using supported browsers with Vision.

Maintenance browsers are older browser versions that are not tested extensively against new versions of Vision. Customer can still report problems and receive support for critical issues. However, this does not guarantee all issues will be addressed. A maintenance browser becomes officially unsupported after one year.

Note the following:

- Ensure that your browser has JavaScript and Cookies enabled.
- For desktop systems, you must have Adobe Flash Player 10.1 or greater.

Desktop Support			
Browser	Supported Browser Version(s)		Maintenance Browser Version(s)
Microsoft® Edge	Latest		N/A
Microsoft® Internet Explorer®	N/A		11
Mozilla® Firefox®	ESR - latest version (including a 12-week overlap with the previous version)		N/A
Google® Chrome™	Latest		N/A
Apple® Safari®	Latest		N/A
Tablet and Mobile Support			
Device	Operating System	Browser	Supported Browser Version(s)
Android™	Android 5.0+	Chrome	Latest
Apple	iOS®	Safari, Chrome	The current major version of iOS (the latest minor or <b>point</b> release of that major version) and the previous major version of iOS (the latest minor or <b>point</b> release of that major version). For example, as of June 7, 2017, D2L supports iOS 10.3.2 and iOS 9.3.5, but not iOS 10.2.1, 9.0.2, or any other version.  Chrome: Latest version for the iOS browser.
Windows	Windows 10	Edge, Chrome, Firefox	Latest of all browsers, and Firefox ESR.

## What Kind of Files Can I Use For Course Content?

Extension	File Type	Notes
HTM, HTML	Web document	The LMS environment strips the <title> tag and text within the tag from user created web documents.
RTF, PPT, PPS, PDF, DOC, DOCX, PPTX, XML, XLS, TXT, WPD	Text document	
JPG, JPEG, PNG, GIF, BMP, TIF, TIFF	Image	
SWF, MPG, MPEG, MP3, MP4, M4V, M4A, AVI, WAV, ASF, MOV	Media	The extensions MP4, M4V, and M4A allow users to drag entire albums, video podcasts, and movies from iTunes.

For more information on [System Requirements](#), please contact [support@gracehill.com](mailto:support@gracehill.com).
